

South-Africa's 1000 Most Popular Surnames

This list was obtained by analyzing 567678 names that were extracted from various social networks. The results are not 100% correct but should be statistically relevant and paints a very clear picture of popularity.

<http://www.name-statistics.org>

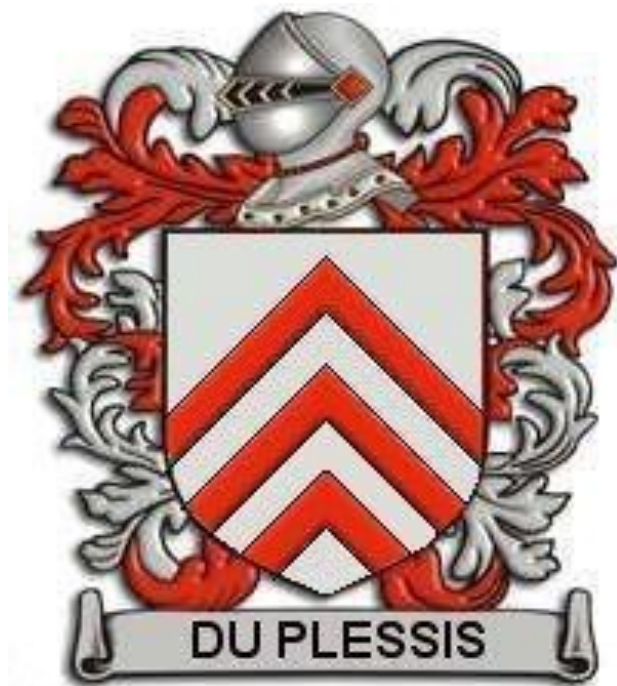

Surname	Frequency	Ranking

If you want to research your South-African family tree, please contact us. On completion of the research, we will provide you with a professional family tree printout as well as a copy of the relevant documentation to proof authenticity of the findings. The printout makes for an awesome gift for a birth, baptism or wedding.
